

ONE MAN KILLED AND EIGHT INJURED IN WRECK THIS MORNING AT GIBSONTON

Head On Collision Between
Work Train And Yard
Engine—Dense Fog As
signed As the Cause.

THREE SENT TO HOSPITAL

Likely That One Will Die
From Results Of
Injuries.

When with a crash a work train with a crew aboard, and a yard engine of the P. and L. E. railroad, came together this morning at Gibsonton, across the river from this place, one man was killed and eight others injured, three seriously. One of the injured men in all probability will die. The three most seriously hurt were taken to the McKeesport hospital. The wreck occurred at 5:35 o'clock, being a head on collision.

The Dead.
GRENMENTI GIGLITE, an Italian. Taken to the undertaking rooms of James Wilson, in Belle Vernon.

The Injured.
R. E. JENNINGS, foreman of work train, shoulder dislocated. Seven Italians, names unknown. Three badly injured and taken to the McKeesport hospital.

Gigliotte was burned to death by escaping steam while some of those injured were also badly burned. The cause of the wreck is thought to have been from the dense fog. The work train was coming from Monessen to Gibsonton, and was running swiftly when the two came together. The yard engine was coming from the north and was running slowly. The engines were very much damaged.

NEW "PURE MILK" DAIRY FOR CHARLEROI

E. R. Spahr of "Spears" has started a new dairy for this place. He will furnish absolutely pure milk to his customers. See his ad in tonight's paper.

Notice.
All goods left at my place over sixty days will be sold for charges, if not called for in ten days from date.
R. O. Vetter, Bell Phone 87-L.
September 14 08

Absolutely but one guaranteed cure for indigestion with all its discomfort. **Milk-tablets**—50 cents a box if they cure—nothing if they fail, because you can get your money back. Sold by Piper Bros. 31t

Mr. and Mrs. Frank Johns have left for a visit in Ohio.

Glen Lynn, employed as an engineer of the new lock which is being built at Brownsville was a visitor in Charleroi today.

Child Peddling On The Street

School Board Takes
Action In Case Of
Syrian.

FATHER STANDS SUIT

For keeping his 11 year old daughter out of school and having her peddle on the streets, John Allies, a Syrian, of this place was brought before Justice Wilson last night on information of Truant Officer Gilbert Uptegraft. The man said he did not keep the girl out but it was proved to the contrary. He was fined \$2 and costs, and instructed to send his daughter to school this morning.

The daughter of Allies is in a primary grade of the Ninth street school, but this year has not been attending. It was learned that she was peddling on the streets and when sufficient evidence was established her parents were arrested. This morning she appeared in school, and showed great willingness to learn.

Charter Of Local Company Filed

The charter of the Co-Operative Realty company of Charleroi, has been filed in the recorder's office. The company proposes to do a general real estate business including the buying, selling, renting of properties and insurance. It is capitalized at \$15,000 divided into 300 shares at a par value of \$50 per share. The charter is for 999 years and the directors of the company are August Mahieu, H. M. Christi, Louis Goazion, John Leyda, Louis Michel, Frank Brison, John Lachem, Ferdinand Polise, Louis Velletay.

FINED \$3 AND COSTS FOR FIGHTING

John McGinty and William Uptegraft were fined \$3 and costs each by Burgess Stett last evening for fighting on Sunday evening.

Fire Plugs are in Fair Condition

Yesterday the fifty-two fire plugs throughout Charleroi were tested by Clerk Nickeson and a local representative of the Charleroi Water company. But four needed attention, the remainder being in good condition.

Star Theatre.

For the balance of this week the management of the Star, have arranged to give its patrons what is probably the best bill they have ever produced, and that is saying a good deal, as all the attractions offered at this cozy little theatre are good. The program in detail will be found in the regular advertisement on page two.

Company A Goes To Philadelphia

Local Company To Take
Part In Founder's Day
Exercise.

LEAVE SUNDAY OCT. 4

Captain Charles P. Keller of Company A has received word from the Adjutant General that the Pennsylvania Divisions of the National Guards would parade in Philadelphia on Monday October 5th in connection with the Founder's Day celebration. The orders of the trip have not as yet been issued but they are expected at any time. The local company will undoubtedly leave Monongahela on Sunday October 4th and will remain in Philadelphia until Tuesday or Wednesday. The members of Company A look forward to the trip with pleasure and a good time is assured.

Captain Keller stated that there were a number of vacancies in his command as a result of the expiration of a number of enlistments and that he expected to recruit his company to its full quota prior to the Philadelphia trip. He further states that no person will be taken along who is not a member of the company and that he will not consider an enlistment after next Monday evening. Company A also expects to be among the commands that will go to Washington City next March to attend the inauguration of the next president.

Braun-Keil.

At the home of the bride's parents in North Side, Pittsburgh, yesterday afternoon, occurred the marriage of Mr. Henry Braun, the well known meat merchant of Fallowfield avenue and Miss Katherine Keil. The wedding was a quiet affair only a very few guests being present. The couple will go to housekeeping at once at a home already furnished on Fallowfield avenue.

Good Shipments Of Various Material Made On River

Special Correspondent Gives Some Figures Furnished By Superintendent Of Lock No. 2.

Port Perry, Sept. 17.—(From Special Correspondent of the Mail.)—Some valuable shipping statistics of the river have been kindly furnished by Superintendent James S. Swainey of Lock No. 2. The records show a very creditable shipment of coal, sand and gravel as well as a large list of passengers during the month of August.

The total shipments of coal, not coal and down stream amounts to 10,539,000 bushels and was loaded in 1,322 boats and barges. There were 424 lockings made and 455 steamers passed down. Of said there were 48,000 bushels; lumber 97,000 feet; passengers 3,723 and a large shipment of miscellaneous freight down.

The business up stream consisted principally of 1,198 boats and barges; 447 steamers; 416 lockings; Sand 377,000 bushels, gravel 532,000, passengers 3,833, farm and dairy products 173 tons, general merchandise \$45, tons consisting of posts, ties, live stock, etc. The shipment of iron products from up river points amounted to 125 tons. Over 7,000 passengers passed up and down, mostly excursionists at this point. But one lock is in commission.

At present the shipments of sand and gravel to all points is remarkably heavy as the demand for reinforced concrete work in bridges, large buildings and retaining walls is very much on the increase. The Rodgers Sand company and the Iron City Sand company are the two principal shippers from in and around Pittsburgh. They

TEACHER FROM PHILIPPINES TO TALK TO PUPILS

C. E. Wright Has Fine Exhibit, Mostly Work From His School.

C. E. Wright, a brother of Supt. W. D. Wright, of the Charleroi Public schools now has on display at the home of the latter whom he is visiting a large number of articles brought from the Philippines. Mr. Wright has been located in the islands for four years, holding positions with school and most of the articles he is showing is the work of pupils under him of various grades. On next Tuesday afternoon at the school hall he will give a talk to the pupils of the local schools over the fourth grade and in the evening will make an address to the public on his experiences in the Philippines and tell of the work in the schools there. Mr. Wright will show his exhibits at both times.

At present Mr. Wright is on an eight months leave of absence. He will leave Charleroi on the 28th of the month for San Francisco where he will sail for the islands to take up his work the first of December. He is division superintendent of the province Misamis, on the island of Mindanao, having been located there for the past two years. During the first two years of his work in the Philippines Mr. Wright was a high school teacher in the town of Capiz on the island of Panay.

"The Philippine children," said Mr. Wright, "show extraordinary ability in handwork. Nearly all of them are naturally very proficient in painting and drawing, while their basket weaving would be hard to excel. The children are bright and very eager to learn, and master difficulties in a quicker time than many of their American brothers. They seemingly have no trouble in learning to read, write and speak fluently the English tongue, which is taught exclusively in the schools."

As examples of the ability of some of his former pupils in the Capiz High school, Mr. Wright showed a map of North America and two sketches of the human body showing the workings of the muscles and use of the arteries, drawn by them, which were little short of wonderful. The map was especially good.

In the exhibit are articles of every day use of the Philippines, all made by hand. A collection of cloths,

intly employ several steamers, dredges and a large force of men. They ship largely by rail as well as by river.

The steamers Harry No. 2 owned by the Pittsburgh Plate Glass company is at Pittsburgh having installed a new pair of cylinders. She will be ready to resume her trade within the next ten days.

Captain Harry Shaw of the Steamer Charley Clark is at present confined in the Mercy hospital at Pittsburgh with a case of typhoid fever.

Probably the largest consignment of sand and gravel shipped to any one point for some time was that taken into the fourth pool Saturday by the Steamer Margaret of the Rodgers Sand company. The tow consisted of 13 flats containing 3,000 each aggregating 39,000 bushels. It was assigned to the contractors at New Lock No. 5 and will be used in building the lock walls and chambers which are entirely of concrete.

This is looked upon as being somewhat of an undertaking as a new concrete headwall will be put in, and one set of new steel gates will be installed. These will be known as the supplementary gates and will virtually make two small locks out of one large one and thereby increase the rapidity of the work.

The United States Steamer Swan with the government dredge boat is doing a line of dredging at the mouth of Turtle Creek where a bar has been formed. The channel will be deepened and much improved.

UNUSUAL SIGNIFICANCE ATTACHED TO COAL DEAL

Unusual significance is believed to be attached to an enormous coal deal put through yesterday, at Uniontown, which transfers a huge block of black diamonds to a syndicate of coal and furnace men of the Pittsburgh district. Greene and Washington counties, it is thought, will be affected materially by the transaction not only through a boom to the coal industry of this section, but it will mean much to Waynesburg by the extending of a standard gauge railroad through to the Greene county capital, making this the terminal of the Pennsylvania branch now operating between Monongahela and Marianna.

J. V. Thompson, the Uniontown millionaire coal magnate, is the party from whom the coal was purchased. Three thousand acres are in the tract which is located in Washington township, Greene county, about six miles from Waynesburg. J. H. Sanford and R. P. Burgen, of Pittsburgh, officials of the Carnegie Coal company, were the purchasing agents representing a syndicate which it is stated has been organized for working the holdings.

This 3,000 acres adjoins on the north the property of the Pittsburgh and Westmoreland Coal company; on the east the Emerald Coal company; on the south the holdings of Frank M. Osborne former president of the Pittsburgh Coal company and others. To the northeast nearby lies a block of coal purchased by the Bessemer Coal company.

The block disposed of by J. V. Thompson yesterday is just five miles

from Marianna, the new coal town where the largest shaft in the world has been sunk and is now in operation. There is no reason to doubt the opening of this new field will bring about immediately the extending of the Monongahela and Washington railroad from Marianna, which has but lately been made the terminal, to the coal field of the syndicate represented by Messrs. Sanford and Burgen.

With this accomplished the "on to Waynesburg" addition will very likely be projected. This is a matter of but a few miles in comparison to the gigantic receipts that would undoubtedly result from the outlay. To reach Waynesburg but one tunnel would be required. This is given as a result of surveys that have been made over the possible route within recent weeks.

The opening of this new field would be practically leading the way to untold wealth in coal. Seven different concerns are interested in the section to the extent of 60,000 acres of coal land not including the holdings of J. V. Thompson himself. The Uniontown coal magnate of late disposed of 30,000 acres including a tract purchased by the Pittsburgh and Westmoreland coal company. The most recent purchase however were those made by W. A. Stone and associates, the Andrews and Hitchcock Iron company, Youngstown, Ohio, and the Youngstown Sheet and Iron company.

Coal in the piece disposed of yesterday is mined at a depth of 300 feet and the vein is seven feet in depth.

Yesterday's transaction was made at a consideration of \$340,000.

MUST HAVE A BROKERS LICENSE

Because the plaintiffs did not hold a real estate brokers license the court held that they were not entitled to recover in the case of W. W. Luce and S. B. Graham versus Joseph Cook, all of Monessen, and a verdict for the defendant was brought in by the jury at Greensburg yesterday. The case attracted considerable interest and the outcome settles a question that frequently comes up among real estate men. The plaintiffs sued to recover a commission of \$6,000 they claimed was due for procuring a purchaser for 227 acres of coal for \$300,000 in Rosetown township. The original commission was to have been \$5,000, but when a hitch occurred Mr. Cook, the plaintiffs claimed, agreed to pay \$1,000 additional when he did sell, provided no suit was brought.

hand woven, of various kinds, show the work well of the nimble fingers of several girls in the schools. Weapons of war, crockery and a variety of articles complete the collection.

Charleroi Guests Present.

Miss Rosanna Hallam entertained at 500 Tuesday afternoon between the hours of 2 and 6, in honor of Mrs. Lewis Hallam, who is soon to leave for Denver, Colorado. The house was beautifully decorated with palms and asters. Twelve tables were in play. Prizes were won and bestowed. Out of town guests were present from Pittsburg, Waynesburg, Charleroi and Claysville.

WHOLE FAMILY ARE ACQUITTED

Under binding instructions from the court and following a statement from the district attorney agreeing to this action, the jury in the case of the four members of the Farina family, of Uniontown, charged with the murder of Pasquale Mondri, husband of the daughter, at that place March 14th, rendered a verdict of acquittal without leaving the jury box yesterday afternoon just before court adjourned for the day.

This was the culmination of the case which started out with every promise of a sensational affair, on Monday morning and ended after three days of serious deliberation with the net result that a widespread dragnet of the law had failed to produce any corroboration whatever of the story told by Nicolo Mondillo, self-confessed slayer of Mondri and star witness for the Commonwealth.

Must be Awful Water.

Punxsutawney, Pa., Sept. 17.—Punxsutawney Councils has determined upon quo warranto proceedings against the Punxsutawney Water company. It is claimed the water supplied by the company is unfit for use. It is asserted three horses have died from drinking it. The Buffalo, Rochester and Pittsburgh and Pennsylvania Railroad companies declare it ruined the boilers of their engines.

Important Meeting.

The Tribe of Ben Hur will meet tonight in an important session and a full attendance is requested. The degree team is especially urged to be present as it will be re-organized and preparations made to initiate a large class at the next meeting. 31t

How He Became a Successful Saver

A young man started a Bank Account with \$25.00 and deposited \$25.00 to his credit each month. As his income increased, he increased the amount of his deposits to \$50.00, then to \$75.00, then to \$100.00 per month. Four years have now passed, and he has \$4,000 to his credit.

This shows what can be accomplished by systematic saving. Why not try this plan? Open an account with the First National Bank of Charleroi now.

Problematic.

The two matters which are causing
more trouble to cities and towns in
Western Pennsylvania at the present
time than any other are the garbage
and water questions, and ready solu-
tions for the problems seem wanting,
despite the fact that men of brains
are putting themselves at a mental
strain worrying over the perplexities
which arise. To say it, the disposal
of the refuse of a town, seem small,
but when the proposition "if" is nec-
essarily inserted in various questions
which arise when the matter is men-
tioned, the problem assumes tremen-
dous proportions. The councils of cit-
ies will start off, "If we buy a gar-
bage furnace who can we get to haul
the refuse, and how will we regulate
the prices?" Will we keep the matter
in our hands or let it out by con-
tract?" and so on. When the fur-
nace is purchased and put in opera-
tion other troubles arise, so that to
be a member of the garbage com-
mittee of a town council is like stand-
ing over the crater of Vesuvius. And
if a place does not have a plant for
the disposal of garbage, the state
board of health will get after the
local officials and compel them to take
some action, which in concise terms
means a plant must be provided for
the burning of refuse.

The water question. Nearly all
the trouble seems to arise in the fur-
nishing of this necessity from heart-
less corporations who hold the fran-
chise, and care not a rap what kind of
service they give, or what quality of
water they furnish. The wise ones
whisper, "wrest the franchise from
these conscienceless bodies," but what
would be the result if a town or city
should acquire an imperfect water
system, which alone would cause no
small expense. Are there not the
chances that it would like the garbage
prove a source of continual trouble?
However, despite the above cautionary
question, Charleroi people are right
willing to take the risk of all trouble
which might arise, if they can but
defeat that Water company which
holds forth here and give the bor-
ough complete control of the sys-
tem.

Another Big Deal.

J. V. Thompson, the coal man of
Fayette county has made another big
deal, selling three thousand acres
more of Greene county coal, the pur-

chasers being Jesse H. Sanford, of
the J. H. Sanford Coal company and
the Carnegie Coal company, and R.
P. Burgan, president of the Carnegie
Coal company. The price paid was
\$280 per acre.

The tract adjoins that of the sale
on Monday to the Emerald Coal com-
pany.

Greene county coal is proving a
rich thing for those who are lucky
enough to possess a few acres. J.
V. Thompson has made considerable
of his millions by speculating in
black diamonds in that county, and
will make more money in the future.
He with unusual foresight several
years ago gobbled up much coal land
in Greene, at small prices and is now
disposing of these holdings at triple
the amount paid, and more, in many
cases.

Within a short time Greene county,
which has been almost isolated inas-
much as railroads are concerned, will
be a net work of tracks. The farmers
of that valuable acreage view with
dissatisfaction in many cases the sale
of coal lands and the rapid surveys
being made by railway men for they
know that their farms will be spoiled
when the coal is mined from under
their lands, and coke ovens are fired.

Electric Sparks.

With the Weather Bureau prom-
ising week-end-relief to the dry places,
it seems a pity that Atlantic City is
out of the jurisdiction.

Mrs. Carrie Nation is said to be
worth \$250,000. If this is true, we
suspect the good old soul has a streak
of P. T. Barnumitis running through
her, after all.

Appearances indicate that Colonel
Guffey continues to be the Democra-
tic party in Pennsylvania, and he is
willing enough too.

That Buffalo under-aker who is
running for Congress would no doubt
like to be placed on one of the com-
mittees that make a specialty of
burying proposed legislation.

Why Men Don't Marry.—When a
married man wants a mess of turkey
it costs him at least two dollars and
a half, considering the price of the
bird, the cost of the oysters to stuff
it, and the cranberry sauce. Besides,
he has to carve it. But an unmarried
man can go to a restaurant and get all
the turkey he wants for fifteen cents.

Not Colds; Just Dirt.

The physicians of Pittsburgh have
discovered that what the matter with
the atmosphere at the present time is
that it needs a bath. They find that
nearly everyone is suffering from a
form of influenza, a bad cold, not
severe enough to have a physician,
but just enough to cause the sufferer
to feel downright mean and miserable.
The Smoky City medical men state
that the climatic conditions contribute
quite a good deal to the prevalence
of colds, as the humidity of the at-
mosphere is very marked at present.
This keeps the dust and smoke from
rising and being blown away. In-
stead, these irritating particles are
kept suspended close to the surface of
the earth, where they are breathed in
and deposited on the mucous mem-
brane, producing an irritation similar
to the inflammation incident to a cold.

Exterminating Pests.

The United States Forestry service
has been doing good work in the way
of killing off prairie dogs of the West.
Poisoned wheat is prepared and placed
for the little animals, they greedily
eat it and consequently die. The
state of Kansas has been carrying on
a warfare against the prairie dog for
the past two or three years, and the
sum of \$100,000 was appropriated by
the Kansas Legislature for the pur-
pose. This work has been so success-
ful that today Kansas is practically
free from the pests. The Forest Ser-
vice proposes to clean up the areas in-
side the National Forests, and be-
lieves that when the stockmen see how
successful it is, the various states
will be induced to take up to the
open ranges and thus sweep them out
of existence.

Government officials are sometimes
hard to arouse from their slumbers.
For instance, the bureau of navigation
has just announced its discovery of
the fact that want advertisements in
the newspapers bring best and cheap-
est returns when men are sought for
naval service. Any advertiser could
have told the bureau that years ago.

Johnny on School Questions

"Vacation is over and I must re-
turn to school again. I think of this
with the greatest of pleasure. I shall
fall in love with my teacher, and the
walk between my home and the school
house will be romantic.

"Last term I had orthography,
writing, history, grammar, mathema-
tics, drawing, current events and
about fourteen other things. This
term I hope I shall have about fifty
studies.

"Last term I had to study till day
and until 10 o'clock at night, and then
get up at 6 in the morning and go to
it again. This term I hope I shall
have to study all night and all day
Sundays.

"Nothing does a growning boy so
much good as to work his head so
much that he has no appetite and goes
about wishing he was dead. He
ought to be made to take up at least
fifty studies that will be no use to
him whatever as a man.

"Last term in order to be perfect
in my studies from day to day, I had
to have the help of my father, my
mother, my brother, my sister and my
Uncle Jim. My father and Uncle Jim
did the swearing for the whole crowd
of us.

"This term they will all help me
again, and I shall have the aid of
grandpa and grandma besides. I think
we shall get through the work every
night by midnight.

"There are boys going to private
schools who don't have more than six
studies, and who have time for recrea-
tion and sleep, but I don't envy
them. It is such boys that grow up
to become pirates in the end. The
way to make a good man of a boy is
to send him to public school and cram
him so full of knowledge that he will
go around with his eyes half shut and
his mouth wide open."

Had Seven Gallons Left.

Messrs Leachman and Edelin, Graf-
ton, W. Va., had been selling a paint,
which they thought well of; and this
had occurred.

They had sold a customer 18 gallons
of it to paint his house. A few
years later, they sold the same man
Devco lead-and-zinc the same number
of gallons to paint the same house.
He had 7 gallons left.

The point of the tale is 11 gallons
Devco paints an 18-gallon house.
Of course, that isn't all.

Why does 11 gallons Devco go as far
as 18 gallons of other paint? Be-
cause it is all paint, all true, no
sham, and full measure.

But that isn't all. Devco lasts
longer. No, no; you haven't got to
wait ten years to find that out. Ten
thousand people know it. They think
a heap of Devco. There's no diffi-
culty in showing our townspeople what
to expect of Devco. \$10 will paint a
\$5 house; and the paint'll last twice
as long.
Buckholdt Hardware Co.

Labor Notes.

The annual convention of the
Trades and Labor Congress of Canada
has been called for this month at
Halifax and great preparations are
being made, insuring a large attend-
ance from all parts of the Dominion.

The Alaskan fisheries now give em-
ployment to more than five thousand
fishermen, the majority of whom are
Soviet organized. A few years ago
there were scarcely any unionized
fishermen engaged in the large Alas-
kan districts.

The National Miners' Federation of
France, with a total membership of
80,000 men, has decided to affiliate
with the General Federation of Labor
for the purpose of acquiring greater
strength and influence over legisla-
tion. Under the new labor law, pro-
mulgated this year by Italy, persons
of either sex under 12 years of age
are not permitted to engage in build-
ing operations, outside work of any
kind, in mines or tunnels, nor in any
industrial establishment.

Use Golden Crescent Flour. At
your grocers.

SALE OF MILEAGE BOOKS MAY BE STOPPED SOON

The movement to do away with the
sale of mileage books on the railroads
entirely has been renewed and it is
understood the proposition will be sub-
mitted to passenger associations
throughout the country. Railroad
officials contend that in many States
the maximum passenger rate has been
fixed at two cents a mile, and that
the traveling public is not benefited
by the sale of mileage books. They
claim the expense of issuing this
form of ticket is heavy and that the
mileage book must go, notwithstanding
commercial organizations are
making a determined effort to compel
the railroads to continue the sale.
At local railroad offices it was announ-
ced yesterday that the sale of mileage
books has been greatly decreased since
the low fare laws became effective.

BUST CLOUDS BOTHER TRAVELERS ON CARS

Cornellville, Sept. 17.—The
drouth has added another annoyance
in addition to the water shortage.
Passengers on the trains and trolley
cars, especially the latter complained
bitterly yesterday afternoon and today
of the fearful dust that is occasioned
by the motion of cars. From Browns-
ville to Greensburg on the trolley the
dust everywhere is heavy and the
speed of the cars stirs it up and it
flies in the windows and the rear of
the cars in great clouds.

Every conductor on the West Penn
line arrives at headquarters covered
with the small particles, and whip-
brooms are in great demand. Old-
time conductors on the lines state that
the annoyance from dust was never so
a aggravated as at present.

CLAIMS MINING LAWS HAVE BEEN VIOLATED

Rosa Sisely, fire boss, and Grover
Thompson, a driver, both of Star
Junction, were arrested yesterday by
Constable Milt Morris, of Uniontown,
upon charges of violating the mining
laws, preferred by Mine Inspector
Alex. McCanich before Justice of the
Peace D. M. Bierer. Both furnished
bail in the sum of \$300 before Squire
Carson of Perryopolis, yesterday for a
hearing at Uniontown next Tuesday
afternoon between 1 and 2 o'clock.
It is claimed that the mine boss di-
covered some gas in the mine about
three weeks ago and Sisley, the fire
boss, was notified. Open lamps had
been used and it was then required
that all lamps be locked.

Sisley is said to have locked all the
lamps except the one used by Thomp-
son, who entered the mine and opened
his lamp. The diggers reported the
matter to Superintendent R. M. Pol-
lack and the fire boss and it was at
once taken up with the mine inspec-
tor.

Washington, Sept. 17.—Mystery
surrounds the finding of an uncon-
scious man on the bank of Chartiers
creek, back of the tube mills yester-
day afternoon about 1 o'clock. After
being removed to the Washington hos-
pital the stranger revived and gave
his name as Carl Forney, a boarder at
No. 38 Summer avenue, who came to
Washington from Pittsburg, and had
intended going to work in a tin plate
mill in town today.

Miss Althea Phyllis of Beaver is a
guest of Miss Calista Kelley.

Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make it a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.

E. DAYTON CRAIG, D.D.S.
401 Monongahela Bank Building,
COR. 6TH AVENUE & WOOD ST.

Spokane, Wash., Sept. 17.—Fred
E. Kemfer, who has been a surveyor,
brewer, printer and politician during
his 20 years' stay in Spokane, wants
a wife. He is a widower and can be
reached at Washington street and Cat-
aldo avenue, Spokane, where he has a
comfortable home with cellar and
woodshed stocked with provisions and
fuel. Any respectable woman, not
younger than 25 years or over 50 years
of age, is eligible, provided she is a
good housekeeper and neat and clean.
Kemfer has a snug bank account and
is employed by The Traction company
in Spokane, but says he is too busy to
search for a helpmate. He has laid
in a stock of photographs and is ready
for a short courtship by mail or other-
wise.

Mange in Hogs.

Following is a recommended cure
for the mange in hogs. Creosote, one
and a half ounces; lard, two pounds.
Mix well and apply to the affected
parts. Or sulphur, one half pound;
lard, two pounds. Mix and apply as
suggested above. Turpentine and sul-
phur at the rate of ten parts of the
former to one of the latter is another
effective remedy. The same mixture
may be used for a dog, but the animal
should be carefully muzzled for the
lard-creosote mixture, else he might
make himself very sick by licking it
off.—American Cultivator.

Train No. 161 of this Division
which leaves Charleroi at 3:30 p. m.
will from now on stop at Riverview.
The change was made on account of
some students of Douglas Business
college, residing at that place who
desire to take that train home.

Prof. R. G. Dean of the Monongahela schools was a visitor in Charleroi last evening a guest of C. E. Wright.

Mr. and Mrs. James F. Bake and family returned to their home in Toledo, Ohio, after a visit with relations and friends in Charleroi.

Briefs of the County

Washington, Sept. 17.—Lying down in the aisle in front of the counter over which he had charge, Weir Tucker, aged 47 years, a clerk in the dry-goods store of A. B. Caldwell, one of the largest stores of its kind in Washington, shot himself in the right temple at 7:15 o'clock yesterday morning.

Donora, Sept. 17.—A number of pumps in the hill district are going dry, and drinking water is rapidly becoming scarce. A number of teamsters are taking their stock to the river for water, and water is being hauled in various parts of town.

Monongahela, Sept. 17.—The case against Justice of the Peace Christ Kipple and J. W. Sarver, a licensed detective, of Forward township, charged with conspiracy and extortion, which was tried before Alderman John J. Sweeney in Pittsburgh yesterday, was dismissed owing to lack of evidence. Jacob Greenfield and Louis Blick caused the men's arrest.

Canonsburg, Sept. 17.—Work on the construction of the extension of the Washington and Canonsburg street railway line to Pittsburgh is progressing rapidly. Workmen are now engaged in erecting the last viaduct, which is located at East Canonsburg.

Canonsburg, Sept. 17.—John C. Phillips, a veteran of the Civil war and one of the best known residents of the Canonsburg region, died at his home in Cecil township, about three miles north of town, at 7:30 o'clock Wednesday morning in the 61st year of his age.

Canonsburg, Sept. 17.—Owing to the scarcity of water in Canonsburg, the steam laundry is sending its work to Washington. The Charliers creek is lower than it has been for many years and the water is unfit for use. Many who have wells with pumps have the pumps locked to keep others from pumping the wells dry.

Washington, Sept. 17.—Morgan avenue, East Washington, will be paved before the snow flies. The East End council are in a hurry and will push the work as fast as possible.

West Alexander, Sept. 16.—In the racing events at the second day's meet of the West Alexander fair here today the track record was broken when Adonis, a sorrel gelding belonging to W. G. Quarts, of Crosscreek Village, made the circuit in 2:23 1-4. Two years ago Brilliant the Great, owned by C. P. Buchanan, Independence, made the complete circuit in 2:25. The racing was a feature of the events of the day. Good time was also made in the free for all pace and the event was not decided until the last heat was run.

Bentleyville, Sept. 16.—The school board held a meeting Tuesday night and elected Miss Laura Pettibon to teach room No. 5 and Miss Roney will act as principal until the return of Prof. Norris, who is away on account of ill health.

The board also decided to build a concrete retaining wall and walk. The work will be started soon so that it can be completed before the bad weather sets in.

Washington, Sept. 17.—In compliance with a recent act of the legislature the Washington board of health has had quarantine notices for scarlet fever, mumps, whooping cough, German measles and chicken pox printed and the notices will hereafter be posted on the houses where the diseases are confined.

Zollarsville, Sept. 16.—The supervisors of West Bethlehem township have decided to do a little permanent road building on their own initiative and with that end in view have contracted with Hootman Brothers, for the construction of an up-to-date Flinn thoroughfare extending from the eastern terminus of the present Flinn road near Zollarsville, on towards Deemston. The length of the road contracted for is a quarter of a mile.

CAPITALISTS AND OFFICIALS ON FIRST TRAIN

Spokane, Wash., Sept. 17.—Capitalists and officials of the Spokane and Inland Empire Electric Railway System will compose the operating crew of the first train to be sent over the newly completed electric line from Spokane to Moscow, Ida., 94 miles south of here, the morning of Sept. 23, when the 150,000 club of this city will give its annual excursion. The crew will be headed by Joy P. Graves, president of the company, as conductor, and his son, Clyde M. Graves, as motorman. Waldo G. Paine, general passenger agent, figures as head brakeman, the brakeman in the rear being R. C. Bodwisch. H. D. Ferris will audit the conductor's count, and Aubrey Lee White is to be the official Barker on the trip. The train will carry 25 excursionists and a band of 15 pieces. The party will pass the day at Moscow, returning late in the evening.

Plants Will Resume.

Tarentum, Sept. 17.—Before another week has rolled around it is likely that every industrial plant in this vicinity will be in operation. As it is now there are only two factories idle. One of these is the Pittsburgh Plate Glass company's plant at Creighton, which has been shut down since June. Extensive repairs have been made and the plant is now ready to resume operations. Notices have been posted that work will be started Monday, September 21.

ONE MAN KILLED AND EIGHT INJURED IN WRECK THIS MORNING AT GIBSONTON

Head On Collision Between
Work Train And Yard
Engine—Dense Fog As-
signed As the Cause.

THREE SENT TO HOSPITAL

Likely That One Will Die
From Results Of
Injuries.

When with a crash a work train with a crew aboard, and a yard engine of the P. and L. E. railroad, came together this morning at Gibsonton, across the river from this place, one man was killed and eight others injured, three seriously. One of the injured men in all probability will die. The three most seriously hurt were taken to the McKeesport hospital. The wreck occurred at 5:35 o'clock, being a head on collision.

The Dead.
GRENMENTI GIGLITTE, an Italian. Taken to the undertaking rooms of James Wilson, in Belle Vernon.

The Injured.
R. E. JENNINGS, foreman of work train, shoulder dislocated. Seven Italians, names unknown. Three badly injured and taken to the McKeesport hospital.

Gigliotte was burned to death by escaping steam while some of those injured were also badly burned. The cause of the wreck is thought to have been from the dense fog. The work train was brought to a stop three hours before the collision.

A few yards south of Gibsonton station, on the round tracks. The work train was coming from Monessen to work along the tracks at Gibsonton. It had switched on the north tracks, and was running swiftly when the two came together. The engines were very much damaged.

NEW "PURE MILK"
DAIRY FOR CHARLEROI

E. R. Spehr of "Speers" has started a new dairy for this place. He will furnish absolutely pure milk to his customers. See his ad in tonight's paper.

Notice.

Mr. and Mrs. Frank Johns have left for a visit in Ohio.

Glen Lynn, employed as an engineer of the new lock which is being built at Brownsville was a visitor in Charleroi today.

Child Peddling On The Street

School Board Takes
Action In Case Of
Syrian.

FATHER STANDS SUIT

For keeping his 11 year old daughter out of school and having her peddle on the streets, John Allies, a Syrian, of this place was brought before Justice Wilson last night on information of Truant Officer Gilbert Uptegraft. The man said he did not keep the girl out but it was proved to the contrary. He was fined \$2 and costs, and instructed to send his daughter to school this morning.

The daughter of Allies is in a primary grade of the Ninth street school, but this year has not been attending. It was learned that she was peddling on the streets and when sufficient evidence was established her parents were arrested. This morning she appeared in school, and shows great willingness to learn.

Charter Of Local Company Filed

The charter of the Co-Operative Realty company of Charleroi, has been filed in the recorder's office. The company proposes to do a general real estate business including the buying, selling, renting of properties and insurance. It is capitalized at \$15,000 divided into 300 shares at a par value of \$50 per share. The charter is for 999 years and the directors of the company are August Mahieu, H. M. Christi, Louis Gouzon, John Leyda, Louis Michel, Frank Brison, John Lachem, Ferdinand Polise, Louis Velletay.

FINED \$3 AND COSTS FOR FIGHTING

John McGinty and William Uptegraft were fined \$3 and costs each by Burgess Bott last evening for fighting on Sunday evening.

Fire Plugs are in Fair Condition

Yesterday the fifty-two fire plugs throughout Charleroi were tested by Clerk Nickeson and a local representative of the Charleroi Water company. But four needed attention, the remainder being in good condition.

Star Theatre.

For the balance of this week the management of the Star, have arranged to give its patrons what is probably the best bill they have ever produced, and that is saying a good deal, as all the attractions offered at this cozy little theatre are good. The program in detail will be found in the regular advertisement on page two.

Sorosis Shoes at Petersons, Monongahela. 3142

Company A Goes To Philadelphia

Local Company To Take
Part In Founder's Day
Exercise.

LEAVE SUNDAY OCT. 4

Captain Charles P. Keller of Company A has received word from the Adjutant General that the Pennsylvania Division of the National Guards would parade in Philadelphia on Monday October 5th in connection with the Founders Day celebration. The orders of the trip have not as yet been issued but they are expected at any time. The local company will undoubtedly leave Monongahela on Sunday October 4th and will remain in Philadelphia until Tuesday or Wednesday. The members of Company A look forward to the trip with pleasure and a good time is assured.

Captain Keller stated that there were a number of vacancies in his command as a result of the expiration of a number of enlistments and that he expected to recruit his company to its full quota prior to the Philadelphia trip. He further states that no person will be taken along who is not a member of the company and that he will not consider an enlistment after next Monday evening. Company A also expects to be among the commands that will go to Washington City next March to attend the inauguration of the next president.

Braun-Keil.

At the home of the bride's parents in North Side, Pittsburgh, yesterday afternoon, occurred the marriage of Mr. Henry Braun, the well known meat merchant of Fallowfield avenue and Miss Katherine Keil. The wedding was a quiet affair only a very few guests being present. The couple will not take a trip at present, but will go to housekeeping at once at a home already furnished on Fallowfield avenue.

Good Shipments Of Various Material Made On River

Special Correspondent Gives Some Figures Furnished By Superintendent Of Lock No. 2.

Port Perry, Sept. 17.—(From Special Correspondent of the Mail).—Some valuable shipping statistics of the river have been kindly furnished by Superintendent James S. Swainey of Lock No. 2. The records show a very creditable shipment of coal, sand and gravel as well as a large list of passengers during the month of August.

The total shipments of coal, not coal and down stream amounts to 10,589,000 bushels and was loaded in 1,222 boats and barges. There were 424 lockings made and 455 steamers passed down. Of sand there were 48,000 bushels; lumber 97,000 feet; passengers 3,728 and a large shipment of miscellaneous freight down.

The business up stream consisted principally of 1,198 boats and barges; 447 steamers; 416 lockings; Sand 277,000 bushels; gravel 502,000; passengers 3,833, farm and dairy products 178 tons, general merchandise 845 tons consisting of posts, ties, live stock, etc. The shipment of iron products from up river points amounted to 125 tons. Over 7,000 passengers passed up and down, mostly excursionists at this point. But one lock is in commission.

At present the shipments of sand and gravel to all points is remarkably heavy as the demand for reinforced concrete work in bridges, large buildings and retaining walls is very much on the increase. The Rodgers Sand Company and the Iron City Sand Company are the two principal shippers from this and around Pittsburgh. They

TEACHER FROM PHILIPPINES TO TALK TO PUPILS

C. E. Wright Has Fine Exhibit, Mostly Work From His School.

C. E. Wright, a brother of Supt. W. D. Wright, of the Charleroi Public schools now has on display at the home of the latter whom he is visiting a large number of articles brought from the Philippines. Mr. Wright has been located in the islands for four years, holding positions with school and most of the articles he is showing is the work of pupils under him of various grades. On next Tuesday afternoon at the school hall he will give a talk to the pupils of the local schools over the fourth grade and in the evening will make an address to the public on his experiences in the Philippines and tell of the work in the schools there. Mr. Wright will show his exhibits at both times.

At present Mr. Wright is on an eight months leave of absence. He will leave Charleroi on the 25th of the month for San Francisco where he will sail for the islands to take up his work the first of December. He is division superintendent of the province Misamis, on the island of Mindanao, having been located there for the past two years. During the first two years of his work in the Philippines Mr. Wright was a high school teacher in the town of Capiz on the island of Panay.

"The Philippine children," said Mr. Wright, "show extraordinary ability in handwork. Nearly all of them are naturally very proficient in painting and drawing, while their basket weaving would be hard to excel. The children are bright and very eager to learn, and master difficulties in a quicker time than many of their American brothers. They seemingly have no trouble in learning to read, write and speak fluently the English tongue, which is taught exclusively in the schools."

As examples of the ability of some of his former pupils in the Capiz High school, Mr. Wright showed a map of North America and two sketches of the human body showing the workings of the muscles and use of the arteries, drawn by them, which were little short of wonderful. The map was especially good.

In the exhibit are articles of every day use of the Philippines, all made by hand. A collection of cloths,

UNUSUAL SIGNIFICANCE ATTACHED TO COAL DEAL

Unusual significance is believed to be attached to an enormous coal deal put through yesterday at Uniontown, which transfers a huge block of black diamonds to a syndicate of coal and furnace men of the Pittsburgh district. Greene and Washington counties, it is thought, will be affected materially by the transaction not only through a boom to the coal industry of this section, but in what means much to Uniontown by the extending of a standard gauge railroad through to the Greene county capital, making this the terminal of the Pennsylvania branch now operating between Monongahela and Marianna.

J. V. Thompson, the Uniontown millionaire coal magnate, is the party from whom the coal was purchased. Three thousand acres are in the tract which is located in Washington township, Greene county, about six miles from Waynesburg. J. H. Sanford and R. P. Burgen, of Pittsburgh, officials of the Carnegie Coal company, were the purchasing agents representing a syndicate which it is stated has been organized for working the holdings.

This 3,000 acres adjoins on the north the property of the Pittsburgh and Westmoreland Coal company; on the east the Emerald Coal company, on the south the holdings of Frank M. Osborne former president of the Pittsburgh Coal company and others. To the northeast nearby lies a block of coal purchased by the Bessemer Coal company.

The block disposed of by J. V. Thompson yesterday is just five miles

from Marianna, the new coal town where the largest shaft in the world has been sunk and is now in operation. There is no reason to doubt the opening of this new field will bring about immediately the extending of the Monongahela and Washington railroad from Marianna, which has but lately been made the terminal, to the coal field of the syndicate represented by Messrs. Sanford and Burgen.

Waynesburg addition will very likely be projected. This is a matter of but a few miles in comparison to the gigantic receipts that would undoubtedly result from the outlay. To reach Waynesburg but one tunnel would be required. This is given as a result of surveys that have been made over the possible route within recent weeks.

The opening of this new field would be practically leading the way to untold wealth in coal. Seven different concerns are interested in the section to the extent of 50,000 acres of coal land not including the holdings of J. V. Thompson himself. The Uniontown coal magnate of late disposed of 30,000 acres including a tract purchased by the Pittsburgh and Westmoreland coal company. The most recent purchase however were those made by W. A. Stone and associates, the Andrews and Hitchcock Iron company, Youngstown, Ohio, and the Youngstown Sheet and Iron company.

Coal in the piece disposed of yesterday is mined at a depth of 300 feet and the vein is seven feet in depth. Yesterday's transaction was made at a consideration of \$240,000.

MUST HAVE A BROKERS LICENSE

Because the plaintiffs did not hold a real estate brokers license the court held that they were not entitled to recover in the case of W. W. Luce and S. B. Graham versus Joseph Cook, all of Monessen, and a verdict for the defendant was brought in by the jury at Greensburg yesterday. The case attracted considerable interest and the outcome settles a question that frequently comes up among real estate men. The plaintiffs sued to recover a commission of \$6,000 they claimed was due for procuring a purchaser for 227 acres of coal for \$200,000 in Restraint township. The original commission was to have been \$5,000, but when a hitch occurred Mr. Cook, the plaintiffs claimed, agreed to pay \$1,000 additional when he did sell, provided no suit was brought.

hand woven, of various kinds, show the work well of the nimble fingers of several girls in the schools. Weapons of war, crockery and a variety of articles complete the collection.

Charleroi Guests Present.

Miss Rosanna Hallam entertained at 500 Tuesday afternoon between the hours of 2 and 6, in honor of Mrs. Lewis Hallam, who is soon to leave for Denver, Colorado. The house was beautifully decorated with palms and asters. Twelve tables were in play. Prizes were won and bestowed. Out of town guests were present from Pittsburgh, Waynesburg, Charleroi and Claysville.

WHOLE FAMILY ARE ACQUITTED

Under binding instructions from the court and following a statement from the district attorney agreeing to this action, the jury in the case of the four members of the Farina family, of Uniontown, charged with the murder of Pasquale Mondino, husband of the daughter, at that place March 14th, rendered a verdict of acquittal without leaving the jury box yesterday afternoon just before court adjourned for the day.

This was the culmination of the case which started out with every promise of a sensational affair, on Monday morning and ended after three days of serious deliberation with the net result that a widespread dragnet of the law had failed to produce any corroboration whatever of the story told by Nicolò Mondillo, self-confessed slayer of Mondino and star witness for the Commonwealth.

Must be Awful Water.

Ponxsutawney, Pa., Sept. 17.—Ponxsutawney Councils has determined upon quo warranto proceedings against the Ponxsutawney Water company. It is claimed the water supplied by the company is unfit for use. It is asserted three horses have died from drinking it. The Buffalo, Rochester and Pittsburgh and Pennsylvania Railroad companies declare it ruined the boilers of their engines.

Important Meeting.

The Tribe of Ben Hur will meet tonight in an important session and a full attendance is requested. The degree team is especially urged to be present as it will be re-organized and preparations made to initiate a large class at the next meeting. 3141

How He Became a Successful Saver

A young man started a Bank Account with \$25.00 and deposited \$25.00 to his credit each month. As his income increased, he increased the amount of his deposits to \$50.00, then to \$75.00, then to \$100.00 per month. Four years have now passed, and he has \$4,000 to his credit.

This shows what can be accomplished by systematic saving. Why not try this plan? Open an account with the First National Bank of Charleroi now.

ASTRONOMICAL EVENTS.

Sun sets 6:02; rises 5:38; moon rises 10:55 p. m.; moon's age 22 days; moon highest.

Problematic.

The two matters which are causing more trouble to cities and towns in Western Pennsylvania at the present time than any other are the garbage and water questions, and ready solutions for the problems seem wanting, despite the fact that men of brains are putting themselves at a mental strain worrying over the perplexities which arise. To say it, the disposal of the refuse of a town seems small, but when the preposition "if" is necessarily inserted in various questions which arise when the matter is mentioned, the problem assumes tremendous proportions. The councils of cities will start off, "If we buy a garbage furnace who can we get to haul the refuse, and how will we regulate the prices? Will we keep the matter in our hands or let it out by contract?" and so on. When the furnace is purchased and put in operation other troubles arise, so that to be a member of the garbage committee of a town council is like standing over the crater of Vesuvius. And if a place does not have a plant for the disposal of garbage, the state board of health will get after the local officials and compel them to take some action, which in concise terms means a plant must be provided for the burning of refuse.

The water question. Nearly all the trouble seems to arise in the furnishing of this necessity from heartless corporations who hold the franchise, and care not a rap what kind of service they give, or what quality of water they furnish. The wise ones whisper, "wrest the franchise from these conscienceless bodies," but what would be the result if a town or city should acquire an imperfect water system, which alone would cause no small expense. Are there not the chances that it would like the garbage prove a source of continual trouble? However, despite the above cautionary question, Charleroi people are right willing to take the risk of all trouble which might arise, if they can but defeat that Water company which holds forth here and give the better system.

Another Big Deal.

J. V. Thompson, the coal man of Fayette county has made another big deal, selling three thousand acres more of Greene county coal, the pur-

chasers being Jesse H. Sanford, of the J. H. Sanford Coal company and the Carnegie Coal company, and R. P. Burgan, president of the Carnegie Coal company. The price paid was \$280 per acre.

The tract adjoins that of the sale on Monday to the Emerald Coal company.

Greene county coal is proving a rich thing for those who are lucky enough to possess a few acres. J. V. Thompson has made considerable of his millions by speculating in black diamonds in that county, and will make more money in the future. He with unusual foresight several years ago gobbled up much coal land in Greene, at small prices and is now disposing of these holdings at triple the amount paid, and more, in many cases.

Within a short time Greene county, which has been almost isolated inasmuch as railroads are concerned, will be a part of the world. The owners of that valuable acreage view with dissatisfaction in many cases the sale of coal lands and the rapid surveys being made by railway men for they know that their farms will be spoiled when the coal is mined from in under their lands, and coke ovens are fired.

Electric Sparks.

With the Weather Bureau promising week-end-relief to the dry places, it seems a pity that Atlantic City is out of the jurisdiction.

Mrs. Carrie Nation is said to be worth \$250,000. If this is true, we suspect the good old soul has a streak of P. T. Barnumitis running through her, after all.

Appearances indicate that Colonel Guffey continues to be the Democratic party in Pennsylvania, and he is willing enough too.

That Buffalo under-aker who is running for Congress would no doubt like to be placed on one of the committees that make a specialty of burying proposed legislation. Why Men Don't Marry.—When a married man wants a mess of turkey it costs him at least two dollars and a half, considering the price of the bird, the cost of the oysters to stuff it, and the cranberry sauce. Besides, he has to carve it. But an unmarried man can go to a restaurant and get all the turkey he wants for fifteen cents.

Not Colds; Just Dirt.

The physicians of Pittsburgh have discovered that what the matter with the atmosphere at the present time is that it needs a bath. They find that nearly everyone is suffering from a form of influenza, a bad cold, not severe enough to have a physician, but just enough to cause the sufferer to feel downright mean and miserable. The Smoky City medical men state that the climatic conditions contribute quite a good deal to the prevalence of colds, as the humidity of the atmosphere is very marked at present. This keeps the dust and smoke from rising and being blown away. Instead, these irritating particles are kept suspended close to the surface of the earth, where they are breathed in and deposited on the mucous membrane, producing an irritation similar to the inflammation incident to a cold.

Exterminating Pests.

The United States Forestry service has been doing good work in the way of killing off prairie dogs of the West. Poisoned wheat is prepared and placed for the little animals, they greedily eat it and consequently die. The state of Kansas has been carrying on a warfare against the prairie dog for the past two or three years, and the sum of \$100,000 was appropriated by the Kansas Legislature for the purpose. This work has been so successful that today Kansas is practically free from the pests. The Forest Service proposes to clean up the areas inside the National Forests, and believes that when the stockmen see how successful it is, the various states will be induced to take up to the open ranges and thus sweep them out of existence.

Government officials are sometimes hard to arouse from their slumbers. For instance, the bureau of navigation has just announced its discovery of the fact that want advertisements in the newspapers bring best and cheapest returns when men are sought for naval service. Any advertiser could have told the bureau that years ago.

Johnny on School Questions.

"Vacation is over and I must return to school again. I think of this with the greatest pleasure. I shall fall in love with my teacher, and the walk between my home and the school house will be romantic.

"Last term I had orthography, writing, history, grammar, mathematics, drawing, current events and about fourteen other things. This term I hope I shall have about fifty studies.

"Last term I had to study all day and until 10 o'clock at night, and then get up at 6 in the morning and go to it again. This term I hope I shall have to study all night and all day Sundays.

"Nothing does a growning boy so much good as to work his head so much that he has no appetite and goes about wishing he was dead. He ought to be made to take up at least fifty studies that will be no use to him whatever as a man.

"Last term in order to be perfect in my studies from day to day, I had to have the help of my father, my mother, my brother, my sister and my uncle. My father and Uncle Jim did the swearing for the whole crowd of us.

"This term they will all help me again, and I shall have the aid of grandpa and grandma besides. I think we shall get through the work every night by midnight.

"There are boys going to private schools who don't have more than six studies, and who have time for recreation and sleep, but I don't envy them. It is such boys that grow up to become pirates in the end. The way to make a good man of a boy is to send him to public school and cram him so full of knowledge that he will go around with his eyes half shut and his mouth wide open."

Had Seven Gallons Left.

Messrs Leachman and Edelin, Grafton, W. Va. had been selling a paint, which they thought well of, and this had occurred.

They had sold a customer 18 gallons of it to paint his house. A few years later, they sold the same man Devoe lead-and-zinc the same number of gallons to paint the same house. He had 7 gallons left.

The point of the tale is 11 gallons Devoe paints at 18-gallon house.

Of course, that isn't all.

Why does 11 gallons Devoe go as far as 18 gallons of other paint? Because it is all paint, all true, no sham, and full measure.

But that isn't all. Devoe lasts longer. No, no; you haven't got to wait ten years to find that out. Ten thousand people know it. They think a heap of Devoe. There's no difficulty in showing our townspeople what to expect of Devoe. \$10 will paint a \$5 house; and the paint'll last twice as long.

Buckholdt Hardware Co.

Labor Notes.

The annual convention of the Trades and Labor Congress of Canada has been called for this month at Halifax and great preparations are being made, insuring a large attendance from all parts of the Dominion.

The Alaskan fisheries now give employment to more than five thousand fishermen, the majority of whom are now organized. A few years ago there were scarcely any unionized fishermen engaged in the large Alaskan districts.

The National Miners' Federation of France, with a total membership of 80,000 men, has decided to affiliate with the General Federation of Labor for the purpose of acquiring greater strength and influence over legislation. Under the new labor law, promulgated this year by Italy, persons of either sex under 12 years of age are not permitted to engage in building operations, outside work of any kind, in mines or tunnels, nor in any industrial establishment.

Use Golden Crescent Flour. At your grocers.

SALE OF MILEAGE BOOKS MAY BE STOPPED SOON

The movement to do away with the sale of mileage books on the railroads entirely has been renewed and it is understood the proposition will be submitted to passenger associations throughout the country. Railroad officials contend that in many States the maximum passenger rate has been fixed at two cents a mile, and that the traveling public is not benefited by the sale of mileage books. They claim the expense of issuing this form of ticket is heavy and that the mileage book must go, notwithstanding commercial organizations are making a determined effort to compel the railroads to continue the sale. At local railroad offices it was announced yesterday that the sale of mileage books has been greatly demanded for the low fare laws became effective.

DUST CLOUDS BOTHER TRAVELERS ON CARS

Cornellville, Sept. 17.—The drought has added another annoyance in addition to the water shortage. Passengers on the trains and trolley cars, especially the latter complained bitterly yesterday afternoon and today of the fearful dust that is occasioned by the motion of cars. From Browns-ville to Greensburg on the trolley the dust everywhere is heavy and the speed of the cars stirs it up and it flies in the windows and the rear of the cars in great clouds.

Every conductor on the West Penn line arrives at headquarters covered with the small particles, and whisp brooms are in great demand. Old-time conductors on the lines state that the annoyance from dust was never so aggravated as at present.

CLAIMS MINING LAWS HAVE BEEN VIOLATED

Ross Sisely, fire boss, and Grover Thompson, a driver, both of Star Junction, were arrested yesterday by Constable Milt Morris, of Uniontown, upon charges of violating the mining laws, preferred by Mine Inspector Alex. McCann before Justice of the Peace D. M. Bierer. Both furnished bail in the sum of \$300 before Squire Carson of Perryopolis, yesterday for a hearing at Uniontown next Tuesday afternoon between 1 and 2 o'clock.

It is claimed that the mine boss discovered some gas in the mine about three weeks ago and Sisely, the fire boss, was notified. Open lamps had been used and it was then required that all lamps be locked.

Sisely is said to have locked all the lamps except the one used by Thompson, who entered the mine and opened his lamp. The diggers reported the matter to Superintendent R. M. Pollock and the fire boss and it was at once taken up with the mine inspector.

Washington, Sept. 17.—Mystery surrounds the finding of an unconscious man on the bank of Chartiers creek, back of the tube mills yesterday afternoon about 1 o'clock. After being removed to the Washington hospital the stranger revived and gave his name as Carl Forney, a boarder at No. 38 Summer avenue, who came to Washington from Pittsburg, and had intended going to work in a tin plate mill in town today.

Miss Althea Phyllis of Beaver is a guest of Miss Calista Kelley.

One of the Chief Points of Interest

An urgent invitation is ex-
tended to all visitors to inspect
the beautiful banking room of

**THE COLONIAL
TRUST COMPANY**

Pittsburgh's great banking house,
which extends from 317 Fourth
Avenue to 316 Diamond Street
(two entrances), a distance of
two hundred and fifty feet. This
magnificent room is finished
throughout in Italian Pavonazzo

Ask for a copy of "Pittsburgh
in Ye Olden Time," an interest-
ing collection of old time pictures
of the city which will be given
to visitors by this company.

The capital and surplus of this
bank is ten million dollars, and
it pays four per cent interest on
savings. You can bank by mail.

most Modern up-to-date Den-
tal Office and investigate the
most modern Method of re-
placing lost teeth i.e., The
ALVEOLAR METHOD.

E. DAYTON CRAIG, D.D.S.
401 Monongahela Bank Building,
COR. 6TH AVENUE & WOOD ST.

Spokane, Wash., Sept. 17.—Fred
E. Kemfer, who has been a surveyor,
brewer, printer and politician during
his 20 years' stay in Spokane, wants
a wife. He is a widower and can be
reached at Washington street and Cat-
aldo avenue, Spokane, where he has a
comfortable home with cellar and
woodshed stocked with provisions and
fuel. Any respectable woman, not
younger than 25 years or over 50 years
of age, is eligible, provided she is a
good housekeeper and neat and clean.
Kemfer has a snug bank account and
is employed by The Traction company
in Spokane, but says he is too busy to
search for a helpmate. He has laid
in a stock of photographs and is ready
for a short courtship by mail or other-
wise.

Mange in Hogs.
Following is a recommended cure
for the mange in hogs: Creosote, one
and a half ounces; lard, two pounds.
Mix well and apply to the affected
parts. Or sulphur, one half pound;
lard, two pounds. Mix and apply as
suggested above. Turpentine and sul-
phur at the rate of ten parts of the
former to one of the latter is another
effective remedy. The same mixture
may be used for a dog, but the animal
should be carefully muzzled for the
lard-creosote mixture, else he might
make himself very sick by licking it
off.—American Cultivator.

Train No. 161 of this division
which leaves Charleroi at 3:30 p. m.
will from now on stop at Riverview.
The change was made on account of
some students of Douglas Business
college, residing at that place who
desire to take that train home.

BERRYMAN'S

"Lastforever" HOSIERY

for Girls, Boys, Women and Men

Any kind of hosiery may be extensively advertised, all the merits of usefulness may be claimed, but the success of "Lastforever Hosiery" must be attained by actual wear. And there is the secret of Lastforever hosiery—the why—there is such a broad demand for "Lastforever" hose which is sweeping through the country today.

These stockings are unexcelled in wearing qualities, permanency of dye, depth of shade, sanitary qualities and comfort to feet. The Lastforever hosiery is sold by the box only and positively guaranteed to last three months without darning.

The four pairs should be worn consecutively. If any pair fails to wear as we guarantee return to the manufacturer and a new pair will be sent to you prepaid.

Every pair fully guaranteed by the manufacturers through us.

25c the pair.

Personal Mention

Mr. and Mrs. U. S. Orange and Miss Eunice Ramsey are visitors in Pittsburgh today.

Mr. and Mrs. S. J. Richardson and granddaughter, Doris, are spending the day in Pittsburgh.

Mrs. Carl Mountsier of Fallowfield avenue is spending the day in Munhall with friends.

Adolph Beigel is transacting business in Pittsburgh today.

Mrs. E. E. McCullough has left for Chicago, Ill., after spending several weeks in Charleroi.

Mrs. Ruser and daughter and Mrs. William King of Monessen were guests yesterday of Mrs. John Kuth of McKean avenue.

Prof. R. G. Dean of the Monongahela schools was a visitor in Charleroi last evening a guest of C. E. Wright.

Mr. and Mrs. James F. Bake and family returned to their home in Toledo, Ohio, after a visit with relations and friends in Charleroi.

CAPITALISTS AND OFFICIALS ON FIRST TRAIN

Spokane, Wash., Sept. 17.—Capitalists and officials of the Spokane and Inland Empire Electric Railway System will compose the operating crew of the first train to be sent over the newly completed electric line from Spokane to Moscow, Ida., 94 miles south of here, the morning of Sept. 23, when the 150,000 club of this city will give its annual excursion. The crew will be headed by Joy P. Graves, president of the company, as conductor, and his son, Clyde M. Graves, as motorman. Waldo G. Paine, general passenger agent, figures as head brakeman, the brakeman in the rear being R. C. Bodwish. H. D. Ferris will audit the conductor's count, and Aubrey Lee White is to be the official Barker on the trip. The train will carry 25 excursionists and a band of 15 pieces. The party will pass the day at Moscow, returning late in the evening.

Plants Will Resume.

Tarentum, Sept. 17.—Before another week has rolled around it is likely that every industrial plant in this vicinity will be in operation. As it is now there are only two factories idle. One of these is the Pittsburgh Plate Glass company's plant at Creighton, which has been shut down since June. Extensive repairs have been made and the plant is now ready to resume operations. Notices have been posted that work will be started Monday, September 21.

PURE MILK

Is good for man, woman or child. Ours is the really pure kind. Try it and be convinced.

WANTED—To borrow \$1,500 on Real Estate security for two or three years. Will pay 3 per cent, commission. Address L. C. Mail office, Charleroi.

Briefs of the County

Washington, Sept. 17.—Lying down in the aisle in front of the counter over which he had charge, Weir Tucker, aged 47 years, a clerk in the dry goods store of A. B. Caldwell, one of the largest stores of its kind in Washington, shot himself in the right temple at 7:15 o'clock yesterday morning.

Donora, Sept. 17.—A number of pumps in the hill district are going dry, and drinking water is rapidly becoming scarce. A number of teamsters are taking their stock to the river for water, and water is being hauled in various parts of town.

Monongahela, Sept. 17.—The case against Justice of the Peace Christ Ripple and J. W. Sarver, a licensed detective, of Forward township, charged with conspiracy and extortion, which was tried before Alderman John J. Sweeney in Pittsburgh yesterday, was dismissed owing to lack of evidence. Jacob Greenfield and Louis Blick cruised the men's arrest.

Canonsburg, Sept. 17.—Work on the construction of the extension of the Washington and Canonsburg street railway line to Pittsburgh is progressing rapidly. Workmen are now engaged in erecting the last viaduct, which is located at East Canonsburg.

Canonsburg, Sept. 17.—John C. Phillips, a veteran of the Civil war and one of the best known residents of the Canonsburg region, died at his home in Cecil township, about three miles north of town, at 7:30 o'clock Wednesday morning in the 61st year of his age.

Canonsburg, Sept. 17.—Owing to the scarcity of water in Canonsburg, the steam laundry is sending its work to Washington. The Chartiers creek is lower than it has been for many years and the water is unfit for use. Many who have wells with pumps have the pumps locked to keep others from pumping the wells dry.

Washington, Sept. 17.—Morgan avenue, East Washington, will be paved before the snow flies. The East End council are in a hurry and will push the work as fast as possible.

West Alexander, Sept. 16.—In the racing events at the second day's meet of the West Alexander fair here today the track record was broken when Adonis, a sorrel gelding belonging to W. G. Quarts, of Crosscreek Village, made the circuit in 2:23 1-4. Two years ago Brilliant the Great, owned by C. P. Buchanan, Independence, made the complete circuit in 2:25. The racing was a feature of the events of the day. Good time was also made in the free for all pace and the event was not decided until the last heat was run.

Bentleyville, Sept. 16.—The school board held a meeting Tuesday night and elected Miss Laura Pettibon to teach room No. 5 and Miss Roney will act as principal until the return of Prof. Norris, who is away on account of ill health.

The board also decided to build a concrete retaining wall and walk. The work will be started soon so that it can be completed before the bad weather sets in.

Washington, Sept. 17.—In compliance with a recent act of the legislature the Washington board of health has had quarantine notices for scarlet fever, mumps, whooping cough, German measles and chicken pox printed and the notices will hereafter be posted on the houses where the diseases are confined.

Zollersville, Sept. 16.—The supervisors of West Bethlehem township have decided to do a little permanent road building on their own initiative and with that end in view have contracted with Hootman Brothers, for the construction of an up-to-date Flinn thoroughfare extending from the eastern terminus of the present Flinn road near Zollersville, on towards Derrinton. The length of the road contracted for is a matter of a mile.

GOOD SHOES

There are Shoes, and Shoes and Shoes. Then there are good shoes. That's the sort we sell. Our shoes are the productions of the most noted shoe makers in the business.
